Professional Summary

Mid-level Flutter engineer. I take production apps from architecture to store release on iOS, Android, Windows, and the web. At TKDS MENA I own the mobile stack for a broadcasting company: 10 apps are live on the App Store and/or Google Play. I also shipped TKDS VAR on the Microsoft Store and PlayTooWin on the web. Core work is live streaming and sports media: Agora, WebRTC, NDI, RTMP, FFmpeg, payments, and Firebase.

Work Experience

Mid-level Flutter Engineer

TKDS MENA | Remote | November 2025 to Present

Broadcasting and streaming company. Sole Flutter engineer for the TKDS Media Core mobile products.

- Shipped 10 production apps that are live on iOS and/or Android.
- Built Fizz Party, a social live-streaming app with profiles, live rooms, search, favourites, and a dark theme. Live on the App Store and Google Play.
- Built TKDS Streamer so a phone or iPad can go live into OBS and vMix with RTMP, WebRTC, and NDI, including camera switch and microphone mute. Live on both stores.
- Built National Golf Network and TKDS Sports: live and on-demand sports, subscriptions, and payments. Live on the App Store and Google Play.
- Shipped TKDS Radio on Google Play (iOS in progress), plus Maadi Sports, ASN TV, Sports Flix, and Southwest Ohio on Google Play.
- Shipped TKDS VAR on the Microsoft Store: a Windows video-review app for live sports, with NDI, multi-camera compare, tags, and timeline control.
- Shipped PlayTooWin (live bingo on the web) and Score Cue (operator app for live sports scoring).
- Used Firebase Authentication, real-time sync, Clean Architecture, Cubit/BLoC, REST APIs, payment flows, and Figma.

Flutter Engineer

BikMedia | iOS and Android

- Shipped a live social app on the App Store and Google Play.
- Built the live stack with Agora RTC, Nosmai beauty and effect filters, a native Game Live fetcher, and a WebRTC filter pipeline.
- Improved low-end device performance with memory-leak cleanup, high-traffic chat throttling, and RepaintBoundary around video.

Flutter Developer Intern

Digital Egypt Pioneers Initiative (DEPI) | Zagazig, Sharqia | July 2025 | 6 months

- Learned Java and object-oriented programming, then Flutter and mobile app architecture.

Flutter Developer Intern

Route Academy | Online | September 2024 | 6 months

- Built Flutter apps with Provider and Cubit, Firebase, HTTP and REST, and Clean Architecture.

Mobile Developer Intern
Digital HUB (D-HUB) | Al-Doqi, Cairo | June 2024 | 1 month
- Studied cross-platform mobile development and user-centred interface design.

Education

Bachelor of Science in Computer Engineering
Faculty of Engineering, Zagazig University | October 2022 to August 2027
Third year. Rating: Very Good. Computer Engineering Department.

Skills

Languages and frameworks: Flutter, Dart, Java, object-oriented programming

Platforms: iOS, Android, Windows, Web, Android TV

Stores: Apple App Store, Google Play, Microsoft Store

Realtime and media: Agora RTC, WebRTC, NDI, RTMP, FFmpeg, Socket.IO, camera APIs, audio streaming, Nosmai filters

Architecture: Clean Architecture, MVVM, repository pattern, dependency injection, BLoC, Cubit, Riverpod, Provider, GetX, GetIt

Backend and data: Firebase Authentication, Firestore, Cloud Storage, Cloud Messaging, REST APIs, Dio, Hive, Shared Preferences

Payments: payment gateways, subscriptions, in-app purchases

Tools: Figma, Git, GitHub, Postman, Android Studio, Visual Studio Code

Projects

Fizz Party — Live on the App Store and Google Play | TKDS MENA
Social live-streaming app with Fizzer profiles, live rooms, search, favourites, and a dark theme. Technologies: Flutter, Dart, Firebase, REST APIs, live streaming.

App Store: https://apps.apple.com/app/id6755402526
Google Play: https://play.google.com/store/apps/details?id=com.tkds.FizzAPP

TKDS Streamer — Live on the App Store and Google Play | TKDS MENA
Mobile broadcaster. Go live from a phone or iPad into OBS and vMix, with camera switch and microphone mute. Technologies: Flutter, Dart, RTMP, WebRTC, NDI, camera APIs.

App Store: https://apps.apple.com/app/id6755495829
Google Play: https://play.google.com/store/apps/details?id=com.tkds.tkdsStreamer

National Golf Network (NGN) — Live on the App Store and Google Play | TKDS MENA
Live and on-demand golf for high school, college, and amateur events, with premium access. Technologies: Flutter, Dart, Firebase, video streaming, subscriptions, payments.

App Store: https://apps.apple.com/app/id6764359434
Google Play: https://play.google.com/store/apps/details?id=com.tkds.nationalgolfnetwork

TKDS Sports — Live on the App Store and Google Play | TKDS MENA
Sports media app for live video, radio, push notifications, and video on demand. Same core powers the other sports apps. Technologies: Flutter, Dart, Riverpod, GoRouter, video, FCM.

App Store: https://apps.apple.com/app/id6778073209
Google Play: https://play.google.com/store/apps/details?id=com.tkds.tkdssports

BikMedia — Live on the App Store and Google Play
Live social app. Filters, a native Game Live fetcher, and performance work for busy live rooms. Technologies: Flutter, Dart, Agora RTC, Nosmai, WebRTC, GetX, Socket.IO.

App Store: https://apps.apple.com/app/id6756263985
Google Play: https://play.google.com/store/apps/details?id=com.bikmedianewapp.vr

TKDS Radio — Live on Google Play. iOS in progress | TKDS MENA
Internet radio with background playback. Technologies: Flutter, Dart, audio streaming.

Google Play: https://play.google.com/store/apps/details?id=com.tkds.RadioAPP

Maadi Sports — Live on Google Play | TKDS MENA
Club sports app for matches, highlights, and club audio and video. Technologies: Flutter, Dart, video, radio.

Google Play: https://play.google.com/store/apps/details?id=com.tkds.maadisports

ASN TV — Live on Google Play | TKDS MENA
Antler Sports Network app for live games and video on demand, including Android TV. Technologies: Flutter, Dart, live video, Android TV.

Google Play: https://play.google.com/store/apps/details?id=com.tkds.antlersn

Sports Flix — Live on Google Play | TKDS MENA
Live and on-demand sports client on the Media Core player. Technologies: Flutter, Dart, Riverpod, live video, video on demand.

Google Play: https://play.google.com/store/apps/details?id=com.tkds.sportsfixlive

Southwest Ohio (SWOH) — Live on Google Play | TKDS MENA
Regional sports network on the same production player and content pipeline. Technologies: Flutter, Dart, live video, video on demand.

Google Play: https://play.google.com/store/apps/details?id=com.tkds.southwestohio

TKDS VAR — Live on the Microsoft Store | Windows | TKDS MENA
Windows video-review app for live sports. Multi-camera compare, timestamped tags, and return to live. Technologies: Flutter, Dart, FFmpeg, media_kit, NDI, MSIX.

Microsoft Store: https://apps.microsoft.com/detail/9nhp3hphp9t3

PlayTooWin — Live on the web | TKDS MENA
Live bingo product. Players sign in, buy cards, and follow the live stream. Technologies: Flutter, Dart, Riverpod, live video.

Website: https://playtoowin.com

Score Cue — Operator app | Android and iOS | TKDS MENA
Sideline and booth app for pushing live soccer and basketball scores into the TKDS stack. Technologies: Flutter, Dart, Riverpod.

Pasty — Launching soon | iOS and Android
Cake-design and sweets commerce app. Customer and designer flows, Arabic and English. Technologies: Flutter, Dart, BLoC, Hive, maps, payments.

Earlier Projects

News — Solo | Flutter
News client with categories, search, bookmarks, offline reading, and caching. Technologies: Flutter, Dart, REST APIs, HTTP.

GitHub: https://github.com/YoussefBaderelden/news

Evently — Solo | Flutter
Task manager with authentication, real-time sync, calendar, and push notifications. Technologies: Flutter, Dart, Firebase Authentication, Firestore.

GitHub: https://github.com/YoussefBaderelden/evently

Movie Browser — Team | Flutter
Movie app with search, favourites, watchlist, and reviews. Shared Git workflow. Technologies: Flutter, Dart, REST APIs, Firebase Authentication.

GitHub: https://github.com/NadaAymanElsayed/movies

Islamic App — Solo | Flutter
Quran, Hadith, prayer times, and Tasbih, with offline support and Arabic text. Technologies: Flutter, Dart, Hive.

GitHub: https://github.com/YoussefBaderelden/islamic_app

Fitness App — Solo | UI prototype | Flutter
Fitness prototype for workout tracking and habit screens. Technologies: Flutter, Dart.

GitHub: https://github.com/YoussefBaderelden/fitness_app
