Youssef Hesham Bader Elden

Flutter Developer | Cross-Platform Mobile Applications

Cairo, Egypt | +20 114 606 6036 | yousefhasham512@gmail.com
Portfolio: youssefbaderelden.github.io | LinkedIn: Profile | GitHub: Profile | Mostaql: Portfolio
Arabic: Native | English: Intermediate

Professional Summary

Flutter developer experienced in building cross-platform mobile applications for Android and iOS, including production social, streaming, and sports products. Integrates REST APIs, Firebase, live media services, and payment flows, with hands-on work in mobile UI development and performance optimization. Contributes from feature implementation through debugging and store releases, with a focus on reliable, user-centred experiences.

Professional Experience

Flutter Developer

TKDS MENA | Remote | November 2025 - Present

- Develop Flutter products for a broadcasting and streaming platform, including social live-streaming, mobile broadcasting, and sports media apps released on the App Store and Google Play.
- Implemented broadcaster workflows for RTMP, WebRTC, and NDI delivery to OBS and vMix, with camera switching and microphone controls.
- Built features for live and on-demand sports, authentication, subscriptions, payments, radio, and real-time updates using Firebase and REST APIs.
- Released products across iOS and Android, a Windows video-review app (TKDS VAR), and an Android TV sports app (ASN TV). Also contributed to PlayTooWin (web) and Score Cue.

Flutter Engineer | Contract

BikMedia | iOS and Android

- Integrated Agora RTC, Nosmai effects, a native Game Live fetcher, and a WebRTC filter pipeline for a live social application.
- Improved live-room performance through memory-leak cleanup, chat throttling, and RepaintBoundary isolation around video; the app is available on both mobile stores.

Flutter Developer Intern

Digital Egypt Pioneers Initiative (DEPI) | Zagazig, Sharqia | July 2025 | 6-month program

- Studied Java, object-oriented programming, Flutter, and mobile application architecture.

Flutter Developer Intern

Route Academy | Online | September 2024 | 6-month program

- Built Flutter project experience with Provider, Firebase, REST APIs, and Clean Architecture.

Mobile Developer Intern

Digital HUB (D-HUB) | Al-Doqi, Cairo | June 2024 | 1 month

- Studied cross-platform mobile development and user-centred interface design.

Education

Engineering studies (in progress)

Faculty of Engineering, Zagazig University | Engineering Department

October 2022 - August 2027 (expected) | Third-year student | Very Good

Selected Projects

Fizz Party | TKDS MENA

- Built social live-streaming features for profiles, live rooms, search, and favourites.
- Integrated Firebase and REST-backed app functionality; published the app on iOS and Android.

Technologies: Flutter, Dart, Firebase, REST APIs | Links: App Store | Google Play

TKDS Streamer | TKDS MENA

- Developed mobile broadcaster workflows that send phone and iPad feeds to OBS and vMix using RTMP, WebRTC, and NDI.
- Implemented camera switching and microphone controls; published the app on iOS and Android.

Technologies: Flutter, Dart, RTMP, WebRTC, NDI, camera APIs | Links: App Store | Google Play

National Golf Network (NGN) | TKDS MENA

- Implemented live and on-demand golf coverage for high-school, college, and amateur events.
- Built premium subscription and payment flows; published the app on iOS and Android.

Technologies: Flutter, Dart, Firebase, video streaming, payments | Links: App Store | Google Play

BikMedia

- Built live-social features with Agora RTC, Nosmai effects, a native Game Live fetcher, and a WebRTC filter pipeline.
- Addressed memory leaks, busy-room chat load, and video rendering performance; app is available on iOS and Android.

Technologies: Flutter, Dart, Agora RTC, Nosmai, WebRTC, GetX, Socket.IO | Links: App Store | Google Play

TKDS VAR | TKDS MENA

- Contributed NDI and FFmpeg-based video review for live-sports camera feeds on Windows.
- Implemented multi-camera comparison, timeline navigation, and timestamped tags; published on the Microsoft Store.

Technologies: Flutter, Dart, FFmpeg, media_kit, NDI | Links: Microsoft Store

PlayTooWin | TKDS MENA

- Contributed to a Flutter web live-bingo product with sign-in and card-purchasing flows.
- Implemented the player experience for following the live stream.

Technologies: Flutter, Dart, Riverpod, live video | Links: Website

Pasty

- Built a cake-customization and sweets-commerce app with customer and designer experiences, Arabic/English support, maps, and delivery QR flows.
- Released the app on iOS and Android with local payment options.

Technologies: Flutter, Dart, BLoC, Hive, maps, payments | Links: App Store | Google Play

More Projects

TKDS Sports | TKDS Sports on Google Play | TKDS Radio | Maadi Sports | ASN TV (Android TV) | Sports Flix | Southwest Ohio | Score Cue | News | Evently | Movie Browser | Islamic App | Fitness App

Technical Skills

Programming Languages: Dart; Java; object-oriented programming

Mobile and Desktop Development: Flutter; Android; iOS; Windows desktop apps; Android TV apps; Flutter web; responsive UI

State Management and Architecture: Provider; Riverpod; GetX; Clean Architecture; BLoC/Cubit (currently learning)

Backend and API Integration: REST APIs; Firebase Authentication; Firestore; Cloud Storage; Firebase Cloud Messaging; Dio; HTTP

Databases and Local Storage: Cloud Firestore; Hive; Shared Preferences

Real-Time Communication and Streaming: Agora RTC; WebRTC; NDI; RTMP; FFmpeg; Socket.IO; camera APIs; audio and video streaming

Development Tools and Version Control: Git; GitHub; Postman; Android Studio; Visual Studio Code; Figma

Testing, Deployment, and Performance: Debugging; performance optimization; App Store, Google Play, and Microsoft Store releases
